# SMILE BRIGHT WITH BIG WHITE SMILE

x 4  
SYRINGES

**Big White Smile is a premium quality whitening gel** designed to deliver excellent whitening results with noticeable effects after just a few days.

All Big White Smile gels contain a unique formula specifically designed, containing desensitisers and with optimum water content to hydrate the teeth during treatment and avoid sensitivity.

Big White Smile is intended for use with a custom designed application tray - still seen as the most controlled and effective way to whiten teeth.

TOOTH WHITENING WITH BIG WHITE SMILE

## HOW DOES BIG WHITE SMILE WORK?

As well as removing surface stains, Big White Smile whitening gels penetrate into the centre of the tooth and whiten from inside out. This gives an effective yet long lasting effect.

### How long do Big White Smile gels need to be worn?

For best results and after appropriate diagnosis follow these recommended wear times daily for up to two weeks :

- ◆ **BIG WHITE SMILE 10% CP**  
for 8 - 10 hours (or overnight)
- ◆ **BIG WHITE SMILE 16% CP**  
for 4 - 6 hours
- ◆ **BIG WHITE SMILE 6% HP**  
for 1 - 1.5 hours
